**Key in Hand** - This new construction project with nice apartments in Pilar de La Horadada lies on the border of the Costa Blanca and the Costa Calida

All properties are south-oriented, overlooking the beautiful spacious swimming pool and the landscaped garden. All apartments have 2 bedrooms and 2 bathrooms.

The ground floor apartments have a spacious garden, the penthouse apartments have a large roof terrace in their place. Thanks to the sleek design and the large open windows, all apartments have lots of light and beautiful views of the resort, the sea and the horizon.

This residence is located in a unique landscape with an 18-hole golf course, where the sea is visible from most of the plots. A privileged and virtually unknown location. Alicante airport is 40 minutes away, Murcia 15 minutes.
